Dear Brothers and Friends of ZBT:

Greetings from Indianapolis, Indiana where it’s never been better to be a ZBT! The fall 2011 academic term was yet another great success for our Fraternity. Our chapters are raising thousands of dollars for charities like the Children’s Miracle Network Hospitals and the Maccabi World Union, they are donating countless hours of time to provide service to their communities, they are excelling academically ranking toward the top of nearly every campus where ZBT operates, and so much more. Our undergraduate members are leaders of their IFCs, active in their Student Government Associations, and taking on leadership roles in organizations like Hillel and Chabad on their campuses.

The theme of this issue is “ZBTs Pioneers” and we can’t help but think about our members today who are pioneering the way for tomorrow.

Dear Brothers and Friends of ZBT:

Greetings from Indianapolis, Indiana where it’s never been better to be a ZBT! The fall 2011 academic term was yet another great success for our Fraternity. Our chapters are raising thousands of dollars for charities like the Children’s Miracle Network Hospitals and the Maccabi World Union, they are donating countless hours of time to provide service to their communities, they are excelling academically ranking toward the top of nearly every campus where ZBT operates, and so much more. Our undergraduate members are leaders of their IFCs, active in their Student Government Associations, and taking on leadership roles in organizations like Hillel and Chabad on their campuses.

The theme of this issue is “ZBT’s Pioneers” and we can’t help but think about our members today who are pioneering the way for tomorrow. They are leading with values while holding true to the Mission, Credo, and Ritual of our organization. They are undergraduates and alumni all working toward a common goal of leading the way for a better society. In the pages that follow you will learn more about ZBT’s Pioneers, both yesterdays and todays. We are honored to call them our Brothers.

We would like to offer our most sincere “thank you” to all those Brothers who give their time, talent, and treasure to ensure that ZBT will have an opportunity to help our future pioneers. We are only as successful as our volunteer base which makes it no surprise to see the recent success we have experienced. Won’t you join us in that success? Consider getting involved in any one of our variety of ways to stay connected. Please contact lbolotin@zbtnational.org if you are interested in exploring ways to ensure the future of our organization. Here’s to Our Fraternity, May it Live Forever.

Cordially, Fraternally, and Sincerely,

Laurence A. Bolotin, Alpha Zeta (Florida) ’01

LETTER FROM THE FRATERNITY PRESIDENT

Brothers,

I hope this issue of the Deltan finds you well. This time last year I told you about all the ZBT records we have broken with the growth of our organization. I’m pleased to report that it’s only gotten better.

LETTER FROM THE FOUNDATION PRESIDENT

Dear Brothers,

Our Fraternity is in the Brotherhood business and I want to share some very exciting news with you – Business is good!

2010-11 was an incredible year, and 2011-12 is on track to be even better.

2011 INTERNATIONAL CONVENTION AND LEADERSHIP SCHOOL PREVIEW

THE QUESTION ISN’T WHAT ARE WE GOING TO DO, THE QUESTION IS WHAT AREN’T WE GOING TO DO?

- FERRIS BUELLER

Zeta Beta Tau International Fraternity will be hitting the streets of Chicago for the 2012 International Convention and Leadership School, July 26th – 29th. The historic Palmer House Hotel will serve as home to the Ultimate Fraternity Reunion.
Brothers,

I hope this issue of the Deltan finds you well. This time last year I told you about all the ZBT records we have broken with the growth of our organization. I’m pleased to report that it’s only gotten better.

To help give you an idea of our growth, in the fall 2005 semester ZBT initiated 594 men. Six years later, in the fall 2011 semester, our Fraternity brought in more than 990 new initiates! This represents close to double our initiate count from 2005. Few, if any, organizations can report that accomplishment.

In the entire 2005-2006 school year, our Fraternity opened 4 new colonies. As of today, ZBT has already opened 8 new colonies with more on the way. We fully expect to reach our goal of 11 new Colonies this year.

This year marked the first time in decades that we have had a chapter exceed a membership roster of 200. Congratulations to Beta Gamma Chapter at Indiana University. In addition we have several chapters well on their way to initiating more than 50 men this year. Last May saw the inaugural expansion into the United Kingdom with our colonization of 19 founding fathers at the University of Nottingham. We have followed that up this year with three more groups in England in Birmingham, London and Manchester with more international expansion on the way.

While we are proud of the way we have grown the organization, we are equally proud of the way we have worked to continue improving the ZBT experience, for both undergraduates and alumni.

We have continued our distinguished speaker series highlighting some of ZBT’s most successful alumni while further strengthening the brotherhood experience through our enhanced “Journey” membership program. We are actively working on the premier ZBT event taking place this summer as we gather in downtown Chicago for our Annual International Convention and Leadership School. In addition to a robust undergraduate program we will offer many programs geared specifically toward alumni including our popular alumni panel. With all of these programs happening we will also be celebrating the 100th anniversaries of ZBT at the University of Illinois and the University of Michigan. This summer’s celebration is one you won’t want to miss.

As always, the driving force behind our organization is alumni like you. There are many ways for our alumni to give back to our organization to ensure the future of ZBT. We thank you for everything you have done, and will hopefully continue to do, to continue making it GREAT to be a ZBT!

See you in the windy city!

Ronald A. Pardo, International President
Zeta Beta Tau Fraternity
Alpha Omicron (Arizona) ’88
Dear Brothers,

Our Fraternity is in the Brotherhood business and I want to share some very exciting news with you – Business is good!

2010-11 was an incredible year, and 2011-12 is on track to be even better. We had a high-energy Convention and Leadership School in Atlanta with near record attendance, and attendance at the recent James E. Greer, Jr. Presidents’ Leadership Academy and Regional Conclaves were indeed records. These programs are funded in part by grants from the Zeta Beta Tau Foundation, and we thank our many donors for making them possible.

On college campuses and in our communities, ZBTs are being recognized for their leadership abilities. To date, ZBT brothers have been elected IFC President at UConn, George Washington, Penn and USC while others have been selected for membership in the Order of Omega, a Greek leadership honor society. Another brother was recently elected to the Board of Supervisors of his Pennsylvania township.

Community service and philanthropy are integral aspects of what it means to be a Brother in ZBT and to represent the values of the Fraternity both within our organization and in our communities. The value ZBT places on service to the Brotherhood of Man is referenced in our Mission, Credo and Ritual and is one of the six aspects of programming in our Brotherhood Circle. Our chapters continue to report successful service and philanthropy projects. Examples include Beta Pi (Cal State – Long Beach) Santas Little Helpers, Omicron (Syracuse) Hoops 4 Kids, Alpha Delta (USC) 4 the Kids Carnival, Lambda (Texas) raised $5,695 for men’s health awareness, Gamma Beta (Cal State – Northridge) raised $1,400 for the Children's Miracle Network Hospital with its Get On The Ball project and Beta Gamma (Indiana) raised $32,000 in the IU Dance Marathon for Riley Hospital.

Brotherhood in ZBT is a lifelong experience, and alumni brothers from a number of our chapters reunited during the fall semester to extend that experience – Mu (Georgia), Sigma (Tulane), Xi (Georgia Tech), Alpha Omicron (Arizona), Gamma Epsilon (Marshall) and Delta Lambda (Monmouth [IL] College). Reunions such as these continue to provide an outlet for our alumni brothers to stay connected and to maintain their passion for ZBT.

Supporting the Zeta Beta Tau Foundation and its scholarship and leadership education programs provides another avenue for our brothers to demonstrate their commitment to and passion for ZBT. From a single $250 scholarship in 1952, the Zeta Beta Tau Foundation Scholarship Awards Program has grown to awards amounting to more than $1.4 million. Sixty-five scholarships, both need- and merit-based, totaling $97,000, have been awarded to brothers the past two academic years. We thank our many donors for making these scholarships possible.

Cordially, Fraternally and Sincerely,
Barry M. Aarons, President
Zeta Beta Tau Foundation
Gamma Tau (Arizona State) ’71
The question isn't "what are we going to do," the question is "what aren't we going to do?"...Ferris Bueller.

Zeta Beta Tau International Fraternity will be hitting the streets of Chicago for the 2012 International Convention and Leadership School, July 26th – 29th. The historic Palmer House Hotel (http://palmerhousehiltonhotel.com/) will serve as home to the Ultimate Fraternity Reunion. Brothers will travel from across North America and the United Kingdom to celebrate ZBT!

The International Convention and Leadership School offers programming for alumni and undergraduate brothers. Highlights to look forward to this year include:

- Ronald M. Mankoff Alumni Panel, which will feature notable ZBT alumni sharing their path to success
- Nadine and Harold Davidson Featured Speakers
- Model Ritual
- Heritage Luncheon and Awards Recognition
- VIP – Volunteer Institute Program
- Leadership Development Break-out Sessions
- Community Service Project
- Mentor Meetings
- Career Networking
- ZBT Business Meeting
- Installation of the ZBT Supreme Council Officers
- Grand Awards Banquet and International Awards Presentations.
- Centennial celebrations of the University of Illinois and University of Michigan Chapters

**FEATURED SPEAKERS**

**Josh Orendi**

Josh is the co-founder and Chief Executive Officer of Phired Up Productions. Applying successful backgrounds in business networking, nonprofit expansion, corporate management, and executive recruitment, he delivers a fun, demanding style of training that empowers individuals with the belief and skill necessary for achieving limitless possibilities. He is a proud
member of Alpha Sigma Phi Fraternity which he joined at Bethany College.

Pete Smithhisler

Pete Smithhisler is one of the nation’s foremost advocates for the fraternal movement due to his extensive work with students, higher education partners, and governmental agencies. Utilizing 25 years of experience in higher education and his current role as president and CEO for the North-American Interfraternity Conference (NIC), he presents students with real world challenges and compels them to broaden their leadership capacity to confront the problems facing fraternity and sorority life. Focusing on the fraternal building blocks of values, Ritual, and service to others, Pete inspires students to fundamentally rethink their individual impact and empowers students to develop the courage to create positive change within their values-based student organizations. An expert in training, facilitation, and curriculum development, Pete provides educational opportunities for students to develop life skills and personal values congruence to advance the true meaning of fraternity: the cultivation of individual and collective maturity. He is passionate about the fraternity experience and regularly affirms, “when done right, fraternities are the premier leadership experience on college campuses.”

Rick Barnes

Rick has been called an entertainer, humorist and educator. He is an established speaker, author, personal coach and trainer. Leaders from across the country have called upon Rick Barnes to deliver powerful messages in a practical, approachable style. He takes an honest look at hazing, the problems it causes and the reasons it continues to exist on campus. Participants are challenged to take a serious look at how they work with their newest brothers.

Rick was a university administrator for 18 years and has served numerous leadership roles through international associations. He has been a member of the faculty for leadership conferences throughout North America and has been a featured speaker on more than 2,000 college campuses. Rick served nine years on the board of directors of the North-American Inter-fraternity
Conference and is a past president of the Association of Fraternity Advisors and the AFA Foundation. In 2011, Rick was the recipient of the NIC Gold Medal, the highest honor bestowed on a fraternity man by the North-American Interfraternity Conference. He is currently serving on the Association of Fraternal Leadership and Values board of directors.

SEE YOU IN CHICAGO!
In the fall of 1998 I was living in the Washington, DC area and then-Fraternity president Ronald J. Taylor, MD (Phi Alpha ’66) and then-executive director Jonathan I. Yulish (Lambda ’84) and I were having dessert at Vaccaro’s in Baltimore’s Little Italy. After a heaping scoop of ice cream, Taylor and Yulish asked me to help them bring back an old tradition of ZBT: Roger Williams Day.

In March of 1999 ZBT held the first Roger Williams Day ceremony since the 1970s.
In the fall of 1998 I was living in the Washington, DC area and then-Fraternity president Ronald J. Taylor, MD (Phi Alpha ’66) and then-executive director Jonathan I. Yulish (Lambda ’84) and I were having dessert at Vaccaro’s in Baltimore’s Little Italy. After a heaping scoop of ice cream, Taylor and Yulish asked me to help them bring back an old tradition of ZBT: Roger Williams Day.

In March of 1999 ZBT held the first Roger Williams Day ceremony since the 1970s. The ceremony was held in the United States Senate Chamber’s foyer in front of the Roger Williams statue, a gift from the State of Rhode Island. I laid a wreath in front of the statue and we listened to presentations by Rhode Island Senator Jack Reed, Congressman Robert Weygand (RI) and National Interfraternity Conference President and Congressman Ed Pease (IN). Undergraduate Councilor Nathan Seltzer (Zeta Omega, ’00) spoke on behalf of ZBT’s undergraduates. Following the ceremony, the Fraternity presented awards to dozens of congressmen and senators as Defenders of Religious Liberty at a reception in the Capitol.

It was a wonderful tribute to Williams and the mission of ZBT.

Why Roger Williams?
It may seem strange that ZBT, founded as the world’s first Jewish fraternity, would choose to celebrate a Baptist minister. Why would ZBT choose to set aside a special day to honor Williams? According to the official ZBT history book, “Here’s to Our Fraternity” author Marianne R. Sanua writes:

“The identity of ZBT was also discernible in its choice of heroes, past and present. It was in the 1920s, under the leadership of Harold Reigelman, that, at the suggestion of Supreme Nasi [now International President] Julius Kahn, Roger Williams Day became a ZBT holiday and was celebrated intermittently for the next four decades.”

Williams was the founder of the city of Providence and the first governor of the Colony of Rhode Island. He was banished from the Massachusetts Bay Colony for daring to speak out against the religious intolerance of the Puritans. He argued for the need of a separation of church and state and the freedom of conscience and religious expression. The Rhode Island colony was the first of the colonies to adopt the separation into their state constitution.

The Williams legacy has obvious importance to a group of men representing a people whose entire existence has been one of exile and banishment from the State because of their religious beliefs. We all know of the Jewish peoples’ attempt to live without fear, having lived under the
constant threat of violence because of their faith, many times at the direction and blessing of the State. America is the “Shining City on the Hill” because of the opportunity to express one’s belief in God (or not to) without fear of state reprisal.

As John Locke is the godfather of classical liberalism, Williams is the godfather of the doctrine of religious tolerance and expression.

In the introduction to his new book *Roger Williams and the Creation of the American Soul*, John M. Barry writes:

“It would be he, not Thomas Jefferson, who first called for a ‘wall of separation’ to describe the relationship of church and state which both he and Jefferson demanded. It would be he who created the first government in the world that built such a wall. And it would be he who first defined the word ‘liberty’ in modern terms, and saw the relationship between a free individual and the state in a modern way.”

**History of Roger Williams Day**

The celebration of Roger Williams Day has not been constant, falling in and out of favor over the past 90 years. It was due to the rise of Hitlerism and the Holocaust that the Fraternity once again began to celebrate Williams in the 1930s.

After Hitler became chancellor of Germany, the Supreme Council voted to revive the celebration and held a ceremony in Statuary Hall of the Capitol Building on February 21, 1936. Sanua writes:

“It was not a small affair. More than 250 persons attended the commemoration, and the program included music from the U.S. Navy Band, addresses by rabbis, pastors, and priests, a speech by Senator Theodor Francis Green of Rhode Island, the singing of The Star Spangled Banner, and the final laying of a wreath at the base of Roger Williams’ statue.”

The event began to evolve and during the 1940s and 1950s it was celebrated in connection with the National Conference of Christians and Jews.

The Fraternity once again revived the celebration in 1979 in another effort to reconnect with its Jewish heritage and origins.

**Roger Williams for Today**

The Fraternity continues to celebrate the legacy of Roger Williams for the 21st Century. Most recently the Phi Alpha Alpha Chapter of The George Washington University has taken the lead
on the celebration and the National Ritual and Heritage Committee is developing an award to honor those who continue to work in the area of religious freedom, specifically continuing to build the bridge between Christians and Jews. Additional programming for undergraduate chapters at their local campuses is also in development.

The real question the Fraternity must ask is how to make the legacy and life of Roger Williams relevant to today’s undergraduate? Barry gives us a reason to try:

“It is always dangerous, often foolish, and sometimes dishonest to read into the past a modern meaning, or to extract from the past a lesson outside its own context. But Roger Williams was in many ways so extraordinary as to create his own context, and, in this instance, the context he created almost four centuries ago does have direct relevance today. He was not the first person to call for religious freedom, but he was certainly the first to link that call to individual liberty in a political sense and to create a government and a society informed by those beliefs.”

So the real question is how can an organization with ZBT’s roots not celebrate such a man? With the rise of anti-Semitism, Islamo-Fascism and Holocaust deniers across the globe, we are just one generation away from forgetting our history. Roger Williams Day is one small way that ZBT can pay homage to our founders and the victims of religious persecution.

As an aside, I made a very interesting discovery after that meeting with Taylor and Yulish over a decade ago. Before this date I was unfamiliar with Roger Williams. As most Americans, I assumed that Thomas Jefferson’s letter to the Danbury Baptists was the first introduction of the “separation of church and state” into the political lexicon.

Shortly after the 1998 Roger Williams Day celebration my family and I were cleaning out my grandfather’s office and came across a family tree. As it turns out Roger Williams is my 10th great-grandfather. His daughter, Mercy Williams, married Resolved Waterman in 1659. The Waterman Family (my mother’s family) was a founding family of Providence. Waterman Street runs through the middle of Providence and along Brown University’s campus and is parallel with Williams Street.

The connection between Roger Williams and our beloved ZBT has become even stronger for me as you might imagine.

By recognizing the legacy of Roger Williams through its celebration, ZBT continues to be what Edwin Gaustad calls in his biography’s dedication of Williams the “spiritual heirs of Roger
Williams, (and) those who agree with him that, ‘having bought truth dear, we must not sell it cheap, not the least grain of it for the whole world.’

Bret W. Hrbek is a member of the Fraternity’s Supreme Council, former member of the professional staff and a member of Delta Xi Chapter at Virginia Tech. He resides in Front Royal, Virginia with his family where he is a financial advisor.

For more information on Roger Williams, visit the Roger Williams Family Association at [www.rogerwilliams.org](http://www.rogerwilliams.org).

Lester H. Wurtele, MD ’58 practiced radiology for nearly 39 years in the Philadelphia area. He has been married to Irma Meyer Wurtele for almost 50 years. They have three children and three grandchildren. He enjoys tennis, photography, and travel.

Franklin & Marshall College
Larry S. Faye ’62 is attending a 50th reunion June 1-3, 2012.

Muhlenberg College
Michael G. Landsman ’88 is currently living in Nanuet, NY and working for Merck Pharmaceuticals.

Muhlenberg College
Jordan Cassway ’91 is continuing his successful photography career and opened a storefront studio in Bala Cynwyd, PA.

Pennsylvania State University
Fred Ochroch ’60 has a new email address: fochroch@aol.com.

Pennsylvania State University
Shawn Delmar ’92 has also attended few colleges for additional certificates.

Pennsylvania State University
Matthew Rike ’94 married Sharon Zabell (also from PSU 1994); and has two children: Sara 11 and Ben 8.

Pennsylvania State University
Lonnie Cooper ’98 started his own Mortgage Company in 2011 and he said it has been going very well. He has already done several loans for his fellow ZBTs. We are the www.ratekings.com - 800-946-8194.

Philadelphia College of Textiles & Science
Steven M. Geisler ’68 is semi-retired and doing his own thing.
Hal Burd ’67 is living in Sonoma, California.

University of Pennsylvania
Neil Ehrenreich ’55 is retired and living in Bradenton, FL with his wife Joanne. He said it is with great sadness that he reports the death in June of his beloved friend, Michael M. Goldberg, Penn ’55, member of Zeta Chapter. Although they lived far apart, they were in constant contact for over 60 years and traveled to see each other and went to Europe together several times. He was the brother that he never had.

University of Pennsylvania
David Bergman ’48 celebrated his 69th wedding anniversary. He has been retired for 16 years.

University of Pennsylvania
Jerome K. Goldman ’55 is retired, married to Karen, and lives in Santa Monia, CA. and Aspen, CO.

University of Pennsylvania
Neil Carrey ’64 is a member of the Country Music Association and Academy of Country Music. Also, he was a Member of a Super Senior Team from MountainGate Country Club in Los Angeles that won the National Championship.

University of Pennsylvania
Matthew Klipper ’80 got married in New York City on December 28, 2011 to Donna Salma. They reside in Los Angeles and work in the television industry as production accountants. They met six years ago when they were both working at ABC.

University of Pennsylvania
Michael Karsch ’82 has a son, Brandon, who is a senior at the University of Pennsylvania and has served as treasurer of ZBT Theta chapter. His second son, Jordan, is a freshman at Penn and just joined ZBT. Michael is currently an attorney practicing corporate and real estate law in Boca Raton, FL.

University of Pittsburgh
Marvin Recht ’57 continues to participate in ZBT in the "Ask Marv" section of the web site. Brothers from all chapters are able to send questions about career-related matters and Marv then makes every attempt to answer their questions as well as refer them to alumni who might be able to provide networking opportunities. Marvin is a member of Butler University's College of Business (Indianapolis, IN) and was asked to be the Faculty Advisor for the Sigma Chi chapter on campus.

University of Pittsburgh
Allan Radman ’79 is graduating from Palmer College of Chiropractic West in San Jose, CA, June 2012.

University of Pittsburgh
J.J. Abbott ’05 recently served as State Representative Chelsa Wagner's Campaign Manager. After successful election, he now serves as Policy Director for County Controller Chelsa Wagner in Pittsburgh.

Temple University
Philip A. Goldman ’60 is retired as of 2006.

Temple University
Allan Turoff ’65 was appointed to the National Board of The Society of Financial Service Professionals in September 2011 for a three year term.
Washington & Jefferson College
Chris Teagarden ’99 is proud to announce that his wife, Kristi and he are the proud parents of Sarah Elizabeth Teagarden. Sarah was born on Saturday, January 28, 2012 and is their first child.

Widener University
Richard L. Garner ’81 is looking for Widener ZBTs.

Widener University
William N. Moore Jr. ’81 is currently employed at Point Pleasant Borough High School in Pt Pleasant, NJ. He is a Guidance Counselor and have been for the past 4 years, prior to that he taught History for 26 years. Proud member of the former Beta Tau Chapter.

York College of Pennsylvania
Daniel J. Wilson ’04 is engaged to be married this September to Ms. Theresa M. Linskey of Stuttgart, Germany. Daniel is also in his 10th year as a civilian computer specialist for the United States Army.

Rhode Island

University of Rhode Island
Mark Rotenberg ’69 is retired and living in Port St. Lucie Florida.

University of Rhode Island
James C. Mistretta ’92 has recently been promoted to Senior Vice President of Sales N.A. at Finra Prep / The Securities Institute of America Inc. Exam Prep Training, Pre Licensing & Instruction for Finra Exams. Series 4, 6, 7,9, 10,24, 26, 55, 62, 63, 65, 66. 1-201-406-4330.

University of Rhode Island
David J. Sharpe ’04 and his wife Carrie, celebrated the birth of their daughter, Kasey Ashley Sharpe born on September 8, 2011, she was 8 lbs!

South Carolina

University of South Carolina
Stuart M. Shalloway ’82 was elected President of the B'nai Israel Congregation Men's Club in Rockville, MD. He is currently serving a two-year term.

University of South Carolina
Daniel Rosendale ’95 left the University of South Carolina in 1980 and joined the US Marine Corps. He was meritoriously promoted three times, served in Japan, Korea, and The Pentagon and honorably discharged in 1988. He attended the University of Maryland, received two bachelorette degrees in 1995. In 1999 he graduated from the University of Baltimore School of Law in addition to receiving his Master's Degree. He is married with three children and has a private law practice focusing in criminal, family and, civil litigation since 2003.

Tennessee

Memphis State University
Mark S. Estomin ’72 is living in Central Florida since 1983. He lived in the Florida Keys from 1972-1981. He has been in the property & casualty Insurance business since 1972. He has owned his own agency since 1989.

Russell L. Smith ’68 is a Special Counsel and head of the Government Relations Practice Group in the Washington, DC office of Willkie Farr & Gallagher LLP, where he has practiced law since 1989. Prior to entering private practice Russell was counsel to the Republican members of House of Representatives Energy and Commerce Committee. Russell and his wife Judy reside in Washington and have one son, Harris, who is pursuing an on-line media career in New York.

Virginia

University of Virginia
Matthew Sammartino ’11 was commissioned into the United States Air Force in May, however just went on active duty on Dec 30th. He is stationed out in Los Angeles Air Force Base working on the test team for GPS satellites for the Space and Missile Systems Center.

Virginia Polytechnic University

Washington and Lee University
Henry A. Fleishman ’70 and the class of 1970 are getting together at Litchfield Beach, SC the week of March 4-11, 2012. Brothers who are attending; Steve Sandler, Ron Sklar, Peter Besson ,Mark Evans,

**Washington, DC**

*American University*

Peter D. Shaer ’66 got married to Marcy Strauss. He has known her for 35 years and they decided on the spur of the moment to get married. Just the two of them in front of a JP on Sunday Jan 29th, 2012.

*George Washington University*

Edward Opack ’61 is formerly the Chapter President at GWU at the time of the merger. He is the Vice-President/Investment Officer at Wells Fargo Advisors in Hamden, CT & Boca Raton, FL.

*George Washington University*

Andrew M. Kaye, Esq. ’85 has been appointed President of the Home Builders Association of Bucks and Montgomery County Pennsylvania. Also, his son Steven Kaye has become a Brother at Andrew’s alma mater the George Washington University Phi Alpha Alpha chapter.

**West Virginia**

*West Virginia University*

Elliot N. Roberts ’50 is a retired pharmacist. His wife (Faye) passed away on July 21, 2011.

**Wisconsin**

*University of Wisconsin - Madison*

Michael D. Jacobs ’83 Mike recently joined Teamsters Local 700 to serve as in-house counsel for the largest public sector union in the State of Illinois. Mike joined the Teamsters after serving nearly 25 years with the public sector as a Cook County State’s Attorney.
Chapter News

California

Alpha Rho (University of California - Los Angeles)
Alpha Rho accepted 33 new brothers to this past fall quarter. They are currently working on encouraging these new members to hold positions in the house and work to better their chapter. They will be having recruitment again this Spring. Alpha Rho also hosted a Shabbat at Hillel in the fall and co-hosted an Around the World Shabbat at Chabad. They co-hosted a Shabbat at Hillel in the winter, and they are in the process of organizing an all Greek Shabbat at their house.

Gamma Beta (California State University-Northridge)
The Gamma Beta Chapter raised over $1,400 for the Children's Miracle Network Hospital during their Get On The Ball philanthropy.

Alpha Delta (University of Southern California)
The Alpha Delta Chapter hosted a carnival in McCarthy Quad for 275 students from MLK and 32nd Street Elementary School as part of Alpha Delta’s third annual “4 The Kids” philanthropy.

Canada

Zeta Eta (University of Western Ontario)
The Zeta Eta colony at the University of Western Ontario (UWO) continues its efforts to become Canada’s official chartered chapter of Zeta Beta Tau. Since November, the colony achieved membership and integration into UWO’s Inter-Fraternity Council. This has opened the doors of the Greek Community to ZBT brothers, allowing for a plethora of events and networking opportunities. Brothers made their presence known at the 2012 Greek Ball and Awards Gala, as Zeta Eta’s own Aggrey Ellis (DJ Agrelius) took home second prize in the coveted DJ Competition. In the upcoming months, Zeta Eta aims to achieve their recruitment goals, while ensuring that their first annual campus events such as, Get On The Ball and Greek Week, leave a resounding impact on the UWO campus and Canadian community.

Colorado

Beta Alpha Theta (University of Colorado)
Over the fall semester, Beta Alpha Theta raised over $10,000 for the Make A Wish Foundation and Children’s Miracle Network. They also volunteered at World Vision. At CU’s Greek Awards on December 6th, they received the Most Outstanding Philanthropy and Community Service Award. In October, they brought Deb Coffin, who currently holds the third most powerful position at CU, into their home. She commended them on their efforts to reach their full potential as "A Powerhouse of Excellence".

Connecticut

Zeta Theta (Western Connecticut State University)
The Zeta Theta Chapter helped initiate the new Beta Tau Colony at Quinnipiac University!

Delta Beta (University of Connecticut)
UConn as a whole raised over $300,000 for the Connecticut Children's Miracle Center, almost doubling last year's total. Delta Beta Chapter of ZBT raised $10,125 which was the second highest for all fraternities and 11th overall. They are extremely proud of all of their brothers considering they had very little when it came to donations. They exceeded their goal of $3,000. One brother went above and beyond, William Janetchek raised $5,253 good for second highest at UConn. They had two morale captains leading them during the 18 hours.

Beta Tau (Quinnipiac University)
On Sunday, February 12, 17 men were initiated into the new colonized Beta Tau Colony.

England

Upsilon Kappa Gamma (London City)
On Friday, January 20 and Monday, January 23, 18 men were initiated into the new colonized Upsilon Kappa Gamma Colony

Georgia

Mu (University of Georgia)
Since November, Mu Colony will be getting a house for Fall 2012. Located right on fraternity row, the house they are leasing will represent a large step forward in the progress of the UGA brotherhood from colony to chapter and will undoubtedly help in recruiting efforts as well. In other news, they will be attending the Annual Mu Alumni Reunion in early March, where brothers old and new will be able to share experiences, advice, and most importantly, embarrassing pictures. They also hosted the first ever reunion of our alumni from Phi Epsilon Pi at Georgia last fall, with more than 8 distinguished alums in attendance including former Atlanta Mayor Sam Massell. Upcoming for the spring, they have a week of activities centered around our second annual Get On The Ball event. They also hope to get involved with the Athletic department to present the ball at several sporting events throughout the week including the annual G-Day football game on April 14.

Illinois

Alpha Beta (University of Chicago)
The Alpha Beta colony is working hard to establish itself as a force on the campus of the University of Chicago. Their first philanthropic event was a clothing drive for the Institute of Women Today, an organization that supports the homeless women and their children of the south side of Chicago. They were able to collect over 25 bags of clothes for the Institute! They are also working hard with other fraternities to found Inter-Fraternity council, knowing that our fresh perspective on campus can go far to influence the future of Greek life on this campus. For the spring, we’re looking forward to “ZBT Bash,” our soon-to-be-annual car bash for charity, as well as Get On The Ball.

Indiana

Beta Gamma (Indiana University)
This fall the Beta Gamma Chapter participated in the Indiana University Dance Marathon (IUDM). This is an annual event to help raise money for the children of the Riley Hospital. IUDM raised an outstanding $1.8 million dollars this year. Beta Gamma was congratulated during the event for being the 3rd biggest fundraiser. They raised just over $32,000 as a house!
Massachusetts

*Mu (Boston University)*
The Mu Chapter held a successful Parents Weekend Lunch at BU Hillel, last semester.

Michigan

*Gamma Iota (Western Michigan University)*
The Gamma Iota Chapter has been growing strong. They recently recolonized in March of 2011, and are quickly approaching their 1 year anniversary. Throughout that year they have been very active within Greek life and the community of Kalamazoo. They have volunteered at their local gospel mission, held many socials, and held an alumni tailgate. Currently they hold the highest GPA for the entire Greek community at WMU and were voted fraternity of the month for January, voted on by the IFC. They continue working hard every day recruiting new men of good character and are working on building a powerhouse of excellence.

New Jersey

*Delta Pi (Fairleigh Dickinson University - Teaneck)*
Over the course of the Fall 2011 semester to the Spring 2012 semester, the Delta Pi Colony had several brotherhood events, social gatherings, and two interest meetings, all of which were executed perfectly. They held their first Mixer event with our sister Sorority, Alpha Epsilon Phi, on, which was a great experience in getting to know their fellow Greek organization. They had a brotherhood lock-in, where they spent time and built stronger relationships with each other. They also began the Journey process that took up to three weeks, where we were able to learn a lot about ZBT and formed stronger bonds between brothers. With the new semester that had started, they attended the Greek Informational, where they represented ZBT. For their first public event, they sold chocolate Valentine Gram to help raise money for their budget. Kelvin Tirado and Joe Cremona attended their first Regional Conclave in Baltimore and they were able to learn a lot and shared to all the brothers.

New York

*Omicron (Syracuse University)*
The Omicron Chapter started an event called "Hoops 4 Kids" which allowed inner city kids to attend a Syracuse basketball game, and the event was a huge success.

*Eta (Union College)*
Its been a great year for Eta Colony. They have recruited several new members during their winter term, organized a successful brotherhood retreat, adopted a local neighborhood park, and made arrangements for the acquisition of a bigger house for next year. On top of these they have been able to spread their name around campus and are expecting a large rush class for the 2013 school year. They are now in the process for planning two alumni events for the spring term, which they hope to have a large turn out. They are definitely making strides in the right direction and they hope to become a chapter sometime next year.

Ohio

*Lambda (Case Western Reserve University)*
Logan C. Hubbard, Lambda (Case Western) ’12, is a member of Order of Omega at Case Western Reserve University. Order of Omega is a Greek honor society recognizing outstanding junior and senior leaders. Members are selected on four criteria: scholarship, Greek community leadership, service, and character.

Pennsylvania

Theta (University of Pennsylvania)
Brother David A. Shapiro, Theta (University of Pennsylvania) ’13, was elected IFC President at the University of Pennsylvania this past fall.

Tennessee

Gamma Mu (University of Memphis)
Last semester, the Gamma Mu Chapter worked to revamp the butterfly garden outside of the Morris S. Fogelman Jewish Student Center at Hillel of Memphis, doubling its size and placing a new focal point in the center.

Texas

Lambda (University of Texas - Austin)
The Lambda Chapter raised the most money on their campus for Movember! They raised an outstanding $5,695.

Washington D.C.

Phi Alpha Alpha (George Washington University)
Brother Daniel A. Gil, Phi Alpha Alpha (George Washington) ’13, was elected IFC President at George Washington University this past fall.

Beta Tau (Georgetown University)
The Georgetown Beta Tau Colony, has initiated 5 members since November and its upcoming initiation class has an additional 5 prospective brothers. Georgetown has sent at least two brothers once a week to a high school in a low income area of DC to assist a local campus wide volunteer tutoring initiative, which is independently led by our own brothers, Hansel Akers and Rob Jackson. Elsewhere in philanthropy, Georgetown recently spearheaded a Valentine oriented rose drive in which all profits were sent to Georgetown Hospital's own pediatric center. The Georgetown Colony has also established relations with the Catholic universities own Christian's United for Israel organization. Together with CUFI Georgetown is hoping to send some of its very own brothers to assist in lobbying for pro-Israel policy right down the road on the Hill Top. The Colony's own James Smith and Heath Dickey were also named to the Patriot League Football Academic Honor Roll for the 2011 fall semester, while this Spring the Colony begins preparations for its first and hopefully annual Holocaust Memorial Day Service with Holocaust survivor Irving Roth coming to speak.
WE’RE IN GOOD COMPANY

NAME: Brad Keywell
CHAPTER: Eta Chapter
SCHOOL: University of Michigan
GRADUATION YEAR: 1991

WHY HE IS A PIONEER: Brother Keywell is the director and co-founder of Groupon, a deal-of-the-day website that features discounted gift certificates that you could use at local or national companies. According to a December 2010 report conducted by Groupon’s marketing association and reported in Forbes Magazine and the Wall Street Journal, Groupon was “projecting that the company is on pace to make $1 billion in sales faster than any other business, ever.”

THE FRATERNAL MOVEMENT

BY ANDY HUSTON, NORTH-AMERICAN INTERFRATERNITY CONFERENCE

The North-American Interfraternity Conference (NIC) is the trade association working on behalf of 75 international and national men’s fraternities. The NIC works to create environments where fraternities can be successful through advocacy, collaboration and education. Five years ago the NIC member fraternities approved NIC Standards that set a baseline for organizational and chapter performance.

Second Annual "Wall Street Day" To Be Held August 10

Following up on last year’s event, where brothers from 20 chapters attended, this year’s session will be held the afternoon of August 10 in the offices of Brown Brothers Harriman, 140 Broadway, two blocks north of Wall Street. Alumni from Morgan Stanley, Cantor-Fitzgerald, Merrill Lynch, Del Mar Asset Management, Longacre Fund Management and Brown Brothers Harriman will discuss their jobs and experiences working for Wall Street firms. The goal of the session is to provide brothers with real world experiences from senior professionals who have spent their careers in such areas as private equity, hedge funds, M&A advisory, wealth management, capital markets, and financial operations. Although the session is geared to undergraduate brothers, recent alumni and parents are also invited. Formal invitations will be mailed to brothers in early Summer, but should you already have an interest in attending, please email zbt@zbtnational.org to reserve your space.
Name: Brad Keywell  
Chapter: Eta Chapter  
School: University of Michigan  
Graduation Year: 1991  
Why he is a Pioneer: Brother Keywell is the director and co-founder of Groupon, a deal-of-the-day website that features discounted gift certificates that you could use at local or national companies. According to a December 2010 report conducted by Groupon's marketing association and reported in Forbes Magazine and the Wall Street Journal, Groupon was "projecting that the company is on pace to make $1 billion in sales faster than any other business, ever."

Name: Sid Luckman  
Chapter: Delta Chapter  
School: Columbia University  
Graduation Year: 1939  
Why he is a Pioneer: Brother Luckman was a quarterback for the Chicago Bears of the NFL from 1939 to 1950. During his 12 seasons with the Bears he led them to four NFL championships. He was the first modern T-formation quarterback and is considered the greatest long-range passer of his time. Brother Luckman is a NFL Hall of Fame Quarterback.

Name: Robert Fischell  
Chapter: Alpha Epsilon Chapter  
School: Duke University  
Graduation Year: 1951  
Why he is a Pioneer: Brother Fischell is a physicist, inventor, and holder of more than 200 U.S. and foreign medical patents. His inventions have led to the creation of several biotechnology companies. He worked at the Johns Hopkins University Applied Physics Laboratory full time for 25 years, and part time for an additional 13 years.

Name: Christopher E. Bell  
Chapter: Alpha Zeta Chapter  
School: University of Florida  
Graduation Year: 2009  
Why he is a Pioneer: Brother Bell made the Forbes 30 Under 30 for creating the award-winning indie game Way. He is now a designer for ThatGameCompany.

Name: Greg B. Steiner  
Chapter: Rho Chapter  
School: University of Illinois  
Graduation Year: 1990  
Why he is a Pioneer: Brother Steiner is the President of eHarmony, which is an online dating website that matches single men and women for long-term relationships. eHarmony, was launched on August 22, 2000, is based in Santa Monica, California; it has members in more than 150 countries and operations in the United States, Australia, Canada, the United Kingdom, and Brazil.
The Fraternity Movement
By Andy Huston, North-American Interfraternity Conference

The North-American Interfraternity Conference (NIC) is the trade association working on behalf of 75 international and national men’s fraternities. The NIC works to create environments where fraternities can be successful through advocacy, collaboration and education. Five years ago the NIC member fraternities approved NIC Standards that set a baseline for organizational and chapter performance.

NIC member fraternities agree to and support open expansion policies and open recruitment practices through the Standards. There has been a growth in total undergraduates and new members in each of the years since the Standards have been implemented. The number of active chapters has also increased throughout that same time period. Today, there are more than 304,000 undergraduate men affiliated with 5600 chapters.

Fraternities exist to build better men. When fraternity is done right it is the premier leadership development organization on a college campus. Often, the data cited about the health of a fraternity experience is associated with academic achievement, service hours and philanthropic dollars raised. The all-fraternity GPA has exceeded the all-male GPA across college campuses in 2009-2010 and 2010-2011. [See chart from report] Fraternity men have provided 2.25 million hours of community service and raised $14.6 million dollars for philanthropic causes in 2010-2011. These are important statistics, but new research is sharing how fraternity is developing men in their college tenures.

The University Learning Outcomes Assessment (UniLOA) from Indiana State University is a standardized assessment instrument designed to measure student behaviors consistent with distinct domains regarded as critical by employers, academicians, managers, researchers, accrediting agencies and a host of others. These audiences identified core areas of Critical Thinking, Self-Awareness, Communication, Diversity, Citizenship, Membership & Leadership, and Interdependence.

The independent researchers have shared their data that compares fraternity men with unaffiliated men and the national database norms. Their results verify our belief that fraternity membership builds better men. Fraternity men out perform unaffiliated men in each of the domains. Additionally, the first semester of membership provides a spike in growth in each of these domains that isn’t seen in the unaffiliated population.

The NIC is pleased to share the content of this research with you at http://www.nicindy.org/fraternityrights.
The Fraternal Government Relations Coalition is a collaborative partnership with the NIC, National Panhellenic Council, and Fraternity/Sorority Political Action Committee. The Coalition exists to help protect the fraternal experience we offer to our members by being a visible presence in Washington, D.C. Their agenda aims to address and impact the following issues: Freedom of Association Advocacy, Charitable Giving Act, Dear Colleague Letter (Department of Education), student financial aid, and safe student housing.
Younger philanthropists have had access to an unprecedented amount of information about the world in which they live, including the many serious challenges facing people and the planet. Their commitment to solving local, national and global problems is remarkable, and they bring unique skills and perspectives to their philanthropic work.

An excellent example is 25-year-old Denver Colorado native, Jessica Posner. While studying abroad in Nairobi, Kenya, Jessica learned that 66% of girls in Kibera (the largest slum in Africa) trade sex for food as early as age six, and only 8% of women in Kibera ever attend school. Jessica found this situation to be intolerable and co-founded Shining Hope for Communities to combat gender inequity and poverty in Kibera.

Young Philanthropists Can Effect Real Change
by Bruce DeBoskey, The DeBoskey Group

Younger philanthropists have had access to an unprecedented amount of information about the world in which they live, including the many serious challenges facing people and the planet. Their commitment to solving local, national and global problems is remarkable, and they bring unique skills and perspectives to their philanthropic work.

An excellent example is 25-year-old Denver Colorado native, Jessica Posner. While studying abroad in Nairobi, Kenya, Jessica learned that 66% of girls in Kibera (the largest slum in Africa) trade sex for food as early as age six, and only 8% of women in Kibera ever attend school. Jessica found this situation to be intolerable and co-founded Shining Hope for Communities (http://shininghopeforcommunities.org) to combat gender inequity and poverty in Kibera. With limited resources, the organization opened the area’s first free school for girls and in just a few years has created a gardening program, a library, an Internet-ready computer center, ecologically friendly latrines that convert waste to methane gas that can be used for cooking and electricity, income generating projects for women living with HIV/Aids, and Kibera's first accessible community health center, staffed by a full-time nurse. In recognition of her work, Jessica received the 2010 VH-1 Do Something Award, including a $100,000 stipend that she’s investing in more programs for girls and women in Kenya.

Much has been written about the responsibility of parents to teach younger generations the importance of giving back to the community and the role that philanthropy plays in a meaningful life. (See, e.g., “Involve Kids Early in Family’s Giving Ethos,” http://www.denverpost.com/search/ci_17367961). Equally important is that children and grandchildren enlighten their parents and grandparents about their philanthropic efforts and goals.

Share your vision, enthusiasm, and ideas with your parents and grandparents. Invite them to join you at a meeting or event of a nonprofit organization that is important to you, or to one that you think would have particular meaning to them. Ask them to volunteer with you for an afternoon to learn about the nonprofit work you are doing. If you donate to a cause, ask if they will match your gift. Whenever you can, show your family’s older generations what you are passionate about and encourage them to join you in your commitment to making a difference.

Likewise, learn everything you can from the more experienced philanthropists in your family. Ask parents and grandparents what causes they care about most and why. See if they’re willing to involve you in helping to create and implement the family’s philanthropic goals. Inquire about how philanthropy fits into their estate plans and how you can help perpetuate the family’s charitable legacy. Meaningful multigenerational efforts greatly increase the likelihood that philanthropy will be a positive family experience that brings generations together around shared purposes and values.

If you are a younger person wanting to learn more, there are many organizations working
to support “next generation philanthropy.” 21/64 offers great tools and information for young philanthropists (www.2164.net), Emerging Practitioners in Philanthropy seeks to strengthen the next generation of grant makers (www.epip.org), Generation Waking Up engages young people to create a thriving, just and sustainable world (www.generationwakingup.org), and Resource Generation (www.resourcegeneration.org) organizes younger people with wealth to leverage resources for social change.

For even younger kids, check out Do Something (www.dosomething.org), Learning to Give (http://learningtogive.org), and YesKidzCan! (http://blog.yeskidzcan.com/).

Younger philanthropists like Jessica are moving mountains by bringing new energy, creativity, skills, passion, resources and perspectives to help solve the problems that challenge our community, nation and world. The synergy of multigenerational teams of philanthropists working together gives us hope for real, long-lasting, and transformational change.

Bruce DeBoskey is a Colorado-based Philanthropic Advisor. Reach him at bruce@deboskeygroup.com.
On behalf of the Zeta Beta Tau Foundation I encourage you to visit our planned giving website and explore planned giving ideas. If you’re interested in any of the concepts included on the website, just click on the topic for a helpful overview. Please rest assured that you’ll be informed — not overwhelmed — by the material you read.

The concept behind planned giving is quite simple. There are ways to give that benefit both you and our organization. So, if you’re inclined to help us fulfill our mission, it makes good sense to explore the options available. Informed giving can dramatically increase the impact you have on the ZBT Brotherhood, as well as benefit you and your family members.

Leaving a Legacy
NORMAN M. WAAS, ESQ., ALPHA OMEGA
(UNIVERSITY OF MIAMI) ’82

“My son is also my brother.” To some, this might seem like the answer to some great riddle. To others, it might seem like the punch line to a joke about someone from my part of the country. To me, however, it takes on a deeper meaning.

LEAVING A LEGACY
JOSHUA C. BROWN, PHI ALPHA ALPHAS
(THE GEORGE WASHINGTON UNIVERSITY) ’12

What does it mean to leave a legacy in ZBT? There are multiple ways you can leave a legacy. You can recruit a class of brothers for your chapter that spurs multiple years of growth and strong leadership, you can help your chapter raise money to purchase a house…
The Role of a Parent’s Club
By: Camille Greenspan

PARENT’S CLUB - Those words can send the average college fraternity into panic mode! That is because the initial perception of such a club is misunderstood. Once the brothers are informed of the benefits, they are usually on board.

A Parent’s Club is an organization comprised of the parents of fraternity members united to promote and provide support for the chapter. Such a club can connect students to a network of resources, provide financial benefits through fundraising, and also help alleviate some of the fears and misconceptions parents have about fraternity life.

As a parent of a past ZBT brother at the University of Southern California, I was very apprehensive about my son joining a fraternity. I had heard all about the “bad” stereotypical fraternity news and I was concerned. I was thrilled when another parent sent out an email asking for volunteers to help form a Parent’s Club, as our Alpha Delta chapter did not have one. A small group of us met with the chapter president explaining we did NOT want to police or snoop, just offer help when needed. Mentioning fundraising activities to help with their “wish list” items was a great incentive.

At our chapter at USC we met once a month at the fraternity house. We got to know the boys and were very respectful of their privacy. They really came to enjoy us and the help and perks we provided. I really enjoyed having a peek into fraternity life. We held an auction at Parent’s Weekend which was a big hit and raised much needed money. We were able to update the security system, buy a couple of big screen TV’s, a stereo system, and provide for extra cleaning service. Parent’s Club was looking pretty good! We would decorate at the holidays, organized a parent/son workday to improve the house, and had father/son poker and golf tournaments. We held a day at the races, a mother/son evening, and we supplied goodies at finals. As a result of such parent involvement, parents expressed such positive feelings about their son’s fraternity life. Even if the fraternity does not have a house, you could meet at someone’s home or conference call each other. Raising money could also provide scholarships for the young men.

As for the fraternity brothers, they met other parents and made valuable contacts which turned into internships and future employment possibilities. Their parents were now learning to deal with their sons on a more adult level.

Participating in a Parent’s Club reinforces the benefits of Zeta Beta Tau Fraternity life, improved house conditions, and a stronger parent/son relationship. It’s a win, win situation for all! Click here to learn more about how you can create a parents club and impact the lives of our undergraduate members.
The Zeta Beta Tau Foundation is fortunate to be able to provide educational leadership grants to Zeta Beta Tau Fraternity for the annual Leadership School, Regional Conclaves and the James E. Greer, Jr. Presidents’ Leadership Academy.

The James E. Greer, Jr. Presidents’ Leadership Academy is an intensive, weekend-long leadership-training program for Chapter and Colony Presidents delivered in a living-learning environment at YMCA Camp Thunderbird in Lake Wylie, SC.

The job of President can be rewarding, challenging and educational when one is equipped with the tools to perform the job. The James E. Greer, Jr. Presidents’ Leadership Academy program challenges the participants to navigate unchartered territory, discover the Power of One and acquire the skills and tools necessary to be successful leaders and to further the tenets of the Credo of Zeta Beta Tau. The program covers topics including assessment of leadership competencies, observing exemplary leadership skills in practice, putting leadership practices in action, overcoming obstacles and challenges, conflict management, leading change, articulating vision, goals and objectives and identifying and effectively utilizing resources.

Of the job of chapter president and the program that bears his name, ZBT Executive Vice President Emeritus James E. Greer, Jr., Beta Pi (Cal State – Long Beach) ’64, recently wrote the following for this article.

“Success in the face of daunting obstacles is always thrilling. And when it results from the imagination, determination and still developing skills of a young person, it is also motivating. The ZBT chapter presidents who have faced the obstacles of a start-up effort or of hostile environments, lack of competitive resources, criticism from within and without, apathy and even self-doubt and yet have achieved success, are the giants of our Fraternity.

They come, a few each year, and we marvel at their accomplishments and count ourselves lucky to be in their company. Such has been my experience and my great honor over fifty years of ZBT involvement. In dark times and bright, these champions have saved us and made us strong.”

The skills taught by the Fraternity’s educational programs, and particularly the annual Presidents’ Leadership Academy, provide our chapter leaders with the tools they need to turn their determination into measurable achievements.”
Chapter, Colony and Interest Group Presidents attended the recently-held 2012 Presidents’ Leadership Academy. Feedback from the participants was again overwhelmingly positive.

James B. (JB) Kalin, Alpha Delta (University of Southern California) ’14 said, “I have had an amazing experience in my presidency thus far, and, although it can be very stressful, I'm becoming a better leader every day. The Presidents’ Leadership Academy really put it all in perspective for me and turned out to be an unforgettable experience. I will continue to stay in touch with the other ZBT leaders from across the country as we keep learning from each other.”

Nicholas O. (Nick) Tauer, Alpha Alpha (Purdue) ’13 added, “The James E. Greer Jr. Presidents’ Academy was beneficial to me as leader. It sparked an extra flame of passion for ZBT and gave me a whole new set of skills to operate as president as well as new viewpoints to deal with various situations.”

Presidents attending the 2012 James E. Greer, Jr. 2012 Presidents’ Leadership Academy were:

Ian Adams, Mu – University of Georgia
Zach Adams, Interest Group – Franklin & Marshall College
Jonathan Balva, Delta Iota – University of Central Florida
Joshua Barrocas, Zeta Alpha – Florida State University
Justin Burns, Alpha Beta – University of Chicago
Marcelo Camacho, Omicron – Syracuse University
Heath Dickey, Beta Tau – Georgetown University
Ryan Fried, Delta Beta – University of Connecticut
Matthew Gaylord, Zeta Theta – Western Connecticut State University
Jamie Goldenberg, Epsilon Mu – University of Kansas
Will Greszes, Alpha Gamma – Vanderbilt University
Hee Yong (Bill) Jeon, Xi – Georgia Institute of Technology
J. B. Kalin, Alpha Delta – University of Southern California
Michael Levy, Mu – Boston University
Sean Mack, Epsilon Theta – University of Delaware
Bilal Moustapha, Beta Xi – Brooklyn College
Alex Neufeld, Delta Psi – SUNY at Stony Brook
James Newman, Alpha Zeta – University of Florida
Joey Pawlan, Interest Group – University of Tampa
Ryan Roden, Beta Alpha Theta – University of Colorado
Jacob Shevrin, Alpha Psi – Pennsylvania State University
Jonathan Shuman, Beta Tau – University of North Carolina at Charlotte
Tyler Spitz, Rho – University of Illinois
Robert Stanton, Eta Gamma – SUNY at Oswego
Nick Tauer, Alpha Alpha – Purdue University
Gaywonn Tavares, Gamma Kappa – Adelphi University
Kyle Weinreich, Rho Iota – University of Rhode Island
Joe Zuckerman, Nu – The Ohio State University

Faculty members for the 2012 James E. Greer, Jr. Presidents’ Leadership Academy were:
Libby Anderson, Director of Operations and Brand Management – Zeta Beta Tau Fraternity
Laurence Bolotin, Executive Director – Zeta Beta Tau Fraternity
Chris Fettig, Chapter Consultant – Zeta Beta Tau Fraternity
David Lerner, Expansion and Leadership Consultant – Zeta Beta Tau Fraternity
Ron Pardo, International President – Zeta Beta Tau Fraternity
Candice Perilstein, Director of Expansion – Zeta Beta Tau Fraternity
Mike Pollack-Twomey, Undergraduate Supreme Councilor – Zeta Beta Tau Fraternity
Adam Rose, Undergraduate Supreme Councilor – Zeta Beta Tau Fraternity
Jim Summers, Annual Fund Director – Zeta Beta Tau Foundation
"My son is also my brother." To some, this might seem like the answer to some great riddle. To others, it might seem like the punch line to a joke about someone from my part of the country. To me, however, it takes on a deeper meaning.

The University of Miami first opened its doors in 1926. In 1946, Alpha Omega was born. For me, it was one year too late because my dad, Maxwell, had already joined Tau Epsilon Phi. When I arrived on the University of Miami campus in 1979, joining TEP was not an option and I pledged the Powerhouse of Excellence. I was active in the house throughout college and law school.

Soon after becoming a lawyer, I took on my most important job; that of a father. Jonathan was born in 1988; Michael was born in 1989; and Benjamin was born in 1992. Like all fathers, I worked hard to raise my boys right and hope that I have taught them well. Like all fathers who were Zeebs, however, I also hoped that my boys would join our fraternity so that I could pass on a bit of our legacy.

Jonathan is autistic and never went to college. He lives and works at The Stewart Home School in Frankfort, Kentucky and excels in all challenges that he undertakes. Michael is a 4th year student at the New College of Florida in Sarasota and is a Fulbright Scholarship finalist. While New College was a perfect school for Michael, it does not have fraternities.

If there was to be a legacy, it would have to be Benjamin. When Benjamin applied to college, he refused to apply to “The U” and the only one he applied to with a fraternity system was Florida State University. At the risk of losing my membership in the Hurricane Club, I hoped that he would go to Tallahassee, so he could enjoy fraternity life as well.

When August, 2010 rolled around, Benjamin drove to Tallahassee…and then kept on going until he arrived at Hendrix College in Conway, Arkansas. Like New College, Hendrix did not permit fraternities on campus. If there was to be a legacy, it would have to be a grandchild.

As the school year rolled on, Benjamin, who was then studying Chemistry, found that he missed his musical life. In high school, Benjamin played bass in the Orchestra and the award winning Jazz Band at the New World School of the Arts. Hendrix was a great academic school, but could not fill this void in his life.

To my amazement, Benjamin wanted to come home. He wanted to go to the University of Miami. After a rigorous audition process, he got one of two slots offered in the Jazz Performance program. Benjamin was coming home.
While excited at the thought of him being nearby (my office is 1 mile from campus), I also made it clear to him that he was going to live on campus and I would see him as often as I would if he still went to school in Arkansas. Benjamin moved into Eaton Hall; the same dorm where his Uncle Richard once lived. He was now a third generation Hurricane!

As a sophomore, he was free to participate in fall rush. The only guidance I gave him on the subject was that he should go through rush and that he could join whatever fraternity he wanted so long as it was ZBT. After one rush event, I got a text from him that said “nice hair”.

I called him and asked if he meant to send the text to me. He did. He saw my composite photograph from 1984 when I was the “House Mother” (a/k/a Graduate Advisor). It was then that I told him about the wonders of blow dryers. The education had begun!

On November 6, 2011, the education continued when I helped to initiate Benjamin and his (and my) new brothers. The passing of this legacy from one generation to the next was a deeply meaningful event for me.

To have your son be your brother is a wonderful thing. To have your son be in the same chapter is an amazing thing. To have your son walk the very same hallways as you (our chapter house is 55 years old if anyone is looking to make a donation), is beyond description. It’s great to be a Zeeb!
Leaving a Legacy
Joshua C. Brown, Phi Alpha Alpha (The George Washington University) ’12

What does it mean to leave a legacy in ZBT? There are multiple ways you can leave a legacy. You can recruit a class of brothers for your chapter that spurs multiple years of growth and strong leadership, you can help your chapter raise money to purchase a house and establish a permanent place on campus, and you can be a founding father of a new colony in a country where there are not usually fraternities. You can also ensure that those closest in your family to you have the opportunity to have the same type of ZBT experiences that you had.

My grandfather joined Phi Epsilon Pi (which merged into ZBT in 1969) at the University of Illinois because there was a shortage of housing. He did not think that by being in the chapter he would meet his best friends and take to dances his future wife. Three decades later, my uncle came to University of Illinois and wanted the same experience that my grandfather had in ZBT. A few years later, my father, wanting a similar experience to my uncle also joined ZBT. Three decades again after that, I joined ZBT when I arrived at the George Washington University.

Last fall, my little brother started his freshman year at the University of Illinois. Through his conversations with me, my dad, my uncle and my grandfather he had a good idea in the back of his mind which chapter he would end up in. More than anything, I wanted him to have as enriching of an experience as I have been fortunate to have with my chapter.

After a long deliberation, my brother decided to join ZBT. Only a few months as a brother in the Rho chapter he ran for the Recruitment Chairman position and won. This is the same leadership opportunity that made me realize how rewarding it is to serve as an officer of my chapter. He, too, now understands how enriching ZBT can be and will hopefully have an even greater experience than I have had with ZBT.

ZBT is truly something special. My family, for three generations, has been able to have the experience, and our story is not unique. All over the country generation after generation of families have been able to pass on the legacy of ZBT. I hope that I can continue to pass on this legacy and if you have had as rewarding of an experience as I have had, I challenge you to try to pass on the legacy as well.
THE HISTORY OF GAMMA EPSILON
KENNETH COHEN, GAMMA EPSILON (MARSHALL UNIVERSITY) ‘65

When Kieve Pearlman, Paul Mayer and Ken Cohen started what would much later become Gamma Epsilon, they had no idea what would follow. Maybe surprising to some, the earliest formation of the group was a knee-jerk reaction to a perceived injustice. They did not think the world should be unfair or that people would be cruel to each other, nor that they should just sit back and do nothing.

9 JEWS AND ME
ROY HUFFMAN, GAMMA EPSILON (MARSHALL UNIVERSITY) ‘65

I am writing to share my fraternity recollection triggered after reading Brother Ken Cohen’s Gamma Epsilon start-up history. From the first time that I met Ken in 1961, I considered him to be of a very special cut. I have tremendous respect for him; a respect that continues to grow. What is amazing is that as a teenager in college, he wrote, talked and thought just like his history recap reads.

CHAPTER ETERNAL

It is our custom to memorialize those members of our Order who have passed to the Chapter Eternal. On Behalf of the Fraternity at large, we extend our sympathy to the families of those Brothers who have passed to the Chapter Eternal. We share with them the sense of loss occasioned by the passing of these true and loyal Brothers.

Dr. Richard Judelsohn, Epsilon (Union College - New York) ‘63

When Kieve Pearlman, Paul Mayer and Ken Cohen started what would much later become Gamma Epsilon, they had no idea what would follow. Maybe surprising to some, the earliest formation of the group was a knee-jerk reaction to a perceived injustice. They did not think the world should be unfair or that people would be cruel to each other, nor that they should just sit back and do nothing. Inaction simply was not an option for a puny few, untested freshmen - as one of the three liked to described themselves.

The precipitating event for what followed was not the stuff of legends. The three friends went to a rush party for another fraternity, although none intended to join. They felt that fraternities were elitist groups, wasted time, participated in crass rituals including hazing, and could not justify the expense. In other words, fraternity rush was purely for entertainment.

And good times were, indeed, had by all until one fraternity member informed them that while they were welcome to the party, they could not join the fraternity -- they were Jewish. They were told that fraternities at Marshall did not take blacks, Jews or five eyed Martians. In retrospect, they are not quite sure about the last part of that claim since the room was noisy and they probably lost concentration after the first two non-qualifiers. However, there were two surprises in this rush policy: first they found out that they must have "looked Jewish" and second that anyone really gave a damn.

Moral outrage in the abstract is one thing, but having injustice crammed right into one's gullet gives real taste to this sense of evil. Liquid vitamins unquestionably fortified their courage that night, but they also decided they had to do something. While a few individuals can be important, real strength comes in numbers working together to accomplish common goals. These three guys were not tall, good looking, rich, or brilliant. Hell, they were not even the right religion! But they had a social consciousness which said "this cannot stand". They would not allow a corrupt Greek system to decide the future for others on the basis of religion or the color of skin.

Of course, they did not know that once the battle started it would evolve into a multi-front and complex war. While this is not the proper forum for full revelation of the conflicts that ensued, suffice it to say that change always threatens existing power structures and a new group embracing societal change proved to be extremely worrisome to some of the more deeply entrenched and sometimes highly prejudiced "leaders" on campus and in the community. Kieve, Ken, and Paul recruited a few others, making the original ten, who worked to become a common brotherhood with ideals that could be contagious and worth defending.

Once this group was started, it would become totally different from any existing campus groups and would attempt to sustain its founding ideals. The original premise triumphed by affecting the lives of those who followed and reverberating around Marshall University in a manner that, at least partially, changed the institution forever.
In the spring 1963, ten brothers became Beta Tau Colony of Zeta Beta Tau. Why ZBT? It had a history of tolerance and would invest in a campus where there were few Jewish students, knowing in advance that Gamma Epsilon would become a minimally Jewish chapter in this traditionally Jewish Fraternity. And ZBT was willing to talk to the ten guys with an idea...a process which would legitimize their efforts.

At that moment in time, none of the ten founders really thought much at all about actually becoming a nationally recognized fraternity. So nine Jews and Roy Huffman...the first brave gentile who in effect proved that religion just did not matter in the construct... became the core of a grand experiment. The group grew and eventually gained support from the local community as well as a small cadre of campus advisors. It gained respect for doing things differently, positively, actually quite innocently. Indeed, pure fortuitous circumstances led to the foundation of Gamma Epsilon.

For many, Gamma Epsilon chapter of ZBT changed lives; for others it was simply a social experience. At each reunion or upon personal reflection, many are moved by the depth of the emotion from those who became part of this fraternity. Each has his own particular take on what happened. Each carries within him memories that either do or do not matter in his own life today. Today, the ZBT - Gamma Epsilon Scholarship Fund is a testimony to the character of those who participated in this grand experiment. An endowment that supports others and lives forever demonstrates the relevance of what was learned.

Kenneth R. Cohen
March 5, 2008
I am writing to share my fraternity recollection triggered after reading Brother Ken Cohen's Gamma Epsilon start-up history.

From the first time that I met Ken in 1961, I considered him to be of a very special cut. I have tremendous respect for him; a respect that continues to grow. What is amazing is that as a teenager in college, he wrote, talked and thought just like his history recap reads. He always had a knack for understanding the importance of the big picture and the roles necessary to accomplish.

I have not shared my college days with many. Having recently paid off my last college loan, I thought I would venture forth with this note.

I recall, as a struggling freshman living in the dormitory, being approached by a couple of guys asking if I wanted to join a fraternity. Other fraternities had approached me, but I had no desire to join. (Truth of the matter was that I had no money to join.)

I never asked Ken why I was approached. Although I seem to recall seeing a long tattered list that had many names already scratched off. I have often wondered if I was the last choice. I could understand why I would be last, because I looked like I had just fallen off a turnip truck. That’s because I had just fallen off a turnip truck. All of this goes to show that it is sometimes more important to be in the game than to worry about how you got there. Once in I just worked to move forward.

Ken and Brother Kieve Pearlman gave me quite a spiel about why I should join them in establishing a nonsectarian social fraternity. (To this day I still do not know what those two have against secretaries.) Ken explained that he was not welcome at most of the fraternities on campus. He had decided to start a nonsectarian fraternity. He wanted to leave a heritage supporting the position that prejudice has no place on a college campus. They had many convincing arguments regarding why they were starting the fraternity. But the question remained - why should I join?

In trying to answer my own question: I think I joined because two very different people raised me. One a very strong and dominant female and one a quiet, hard working male. I have always credited my mother for my primary upbringing. My parents raised me not to judge. My father always taught that I could pick my friends, but I could not pick my relatives. I tended to take him at his word. Skin/religion/height/gender/education/money/looks did not matter. If I like you and you me, then we can be friends. More of a heart to heart and mind to mind basis. Fortunately, I have always had the ability to ignore biases, which is good because so much seems to exist. (Being short, loud, from small town West Virginia, not the sharpest knife in drawer, not rich, etc. - made me an easy target.) So it appeared that Ken, Kieve and I were in agreement that life should be void of prejudice. They had convinced me that they were sincere in what they were setting out to accomplish and they needed a gentile in order to achieve. Thus the token gentile came to be.

I joined Ken Cohen, Marty Sigel, Kieve Pearlman, Paul Mayer, Bob Kunis, Barry Cohen, Marvin Bobes, Mike Lerner, and Mike Rossman to form the Beta Tau Club. (Geez, I hope I got the ten right.) 9 Jews and Me had set off to experience the adventure of a lifetime.

I liked the fact that we were going to strive to be community oriented, academically driven and socially active all while having a positive, proactive campus impact. The intent was to serve as a character building experience for each of us. We worked hard to honor our community obligations. We were very active in the Huntington community proving to the citizens of Huntington that Marshall students did appreciate them. We wanted to lead the Greeks academically and have our parents...
understand that we knew why they sent us to college. (As I recall we set the academic bar very high.) We wanted to learn how others conducted their lives. Not just from a religious perspective, but from all perspectives. This objective was far exceeded. Brotherhood is a great term for defining what we became. And we wanted to have fun. This too we may have exceeded. I don't recall as I was usually at the library studying. (My memory is slipping, but I do think Marshall had a library, so I stand behind my statement.) Although I do remember seeing some mighty short Toga's at a party or two.

I am proud of the fact that when we departed Marshall we had accomplished the established objectives. We had walked the talk. We had gained the respect of the campus. And this gaining of respect was not by accident, but through hard work. Most other social fraternities seemed to be committed to image. They may have looked better than we did, but they did not come close when it came to delivering results.

Of course, it all boils down to the people involved in the endeavor as to whether or not it will succeed. I was only involved with the fraternity for the first couple of years. I worked 40 hours per week at a factory, and I was fortunate enough to marry the most beautiful woman on campus. Linda delivered the first Gamma Epsilon legacy - Donald Kieve Huffman. (See above for naming rights.)

Fortunately, there were many talented others involved in this endeavor. One of the smartest and most talented people that I have ever had the privilege to know is Brother Michael Lerner. He did not seem to recognize just how talented that he was. He carried 19-21 hours per semester. (14 was heavy for me.) He was a talented musician that shocked the campus when he led us scalawags to a Mothers Day trophy. A victory we savored as other fraternities registered complaints that we may have skirted a rule or two. We still have the trophy. In his spare time he became the campus ping-pong champion all while being one heck of great fraternity brother with a mind-boggling GPA. When I was building teams for my employer I always worked hard to find a "Mike Lerner". (Oh by the way, the ZBT sign in the picture was hand-made by Brother Lerner.)

The "getting organized" times are blurry because we spent a year or so as the Beta Tau Colony. But I think the second Gamma Epsilon president was Catholic Jan Blumer. When I said this group of young men walked the talk, I meant it. Gamma Epsilon became a success. We were individuals committed to bonding and banding together to accomplish an agreed to set of objectives.

If permitted to digress one final time, I want to share my "Ess & Fress" experience with you. As I recall we needed money to fund our various community projects. Someone came up with the idea of having an "Ess & Fress" fund raising event. I believe "Ess" means eat and "Fress" means eat ravenously. The drawing point would be that this would be a 100% Kosher meal. Novel idea for a Jewish fraternity. We would prepare a meal for Marshall's campus like they had never experienced. (Or for that matter, would ever experience again.)

Brother Tony Broh's family purchased a huge hunk of corned beef for us. Tony's mother agreed to cook it if we would come by and help. A couple of days later this huge hunk of meat had shrunk to almost nothing. I knew then that we were in trouble. We moved forward because we had sold many tickets in advance of this great meal. The meal was wonderful, but, alas, our project was not a financial success. (It would have been labeled a financial disaster, but I think the Broh's forgot to charge us for the meat.)

Next year we decided not to have this event. I asked if the gentile could take a swing at it. One of the wonderful things about this group of people - "no" was not an overly used word. This next "Ess & Fress" was very successful. We had a great turnout, most likely due to the meal they had experienced the year before. But the only thing Kosher about this meal was the pickle. Everyone thought it was as good as the previous year. We made a lot of money.

When I reflect back on my fraternity days I recall many lessons learned. I will share some of these with you.

- Lesson learned - do not confuse selling with installing. Sell the people what they want and deliver what they need.
Lesson learned - set your goals high, work hard, have a plan, never forget your objective and have fun. This formula continues to work for me to this day.

Lesson learned - when given a choice of having a 100-member team or a handpicked ten-person team - always take the ten. I truly believe that if a small group of dedicated, committed and intelligent people set their mind to do something then it can be accomplished. I am proud of the minor miracles accomplished during my college days.

Lesson learned - if human beings receive encouragement and recognition they actually will believe that they can sing.

Lesson learned - the world is full of two types of people: those that are results oriented and those that are image oriented. Ask each person who they are and 90% will say results-oriented. 90% of this 90% are kidding themselves. Throughout life, if you can distinguish which is which, you will have the upper hand in any situation. We were so fortunate from the beginning through our initial pledge classes to have all result-oriented brothers.

Lesson learned - reach for what you want. When we moved into the house we had a goal of having at least a couple of guests per month over for dinner. We had the University President, Deans, prominent professors, Miss USA, potential pledges and just about anyone else that someone decided to drag in off the street. Most of the other fraternities did not invite these people because they assumed that they would not come or that they were not good enough to be invited or they feared rejection. We allowed the invitees to decide. It was amazing how many people came to dinner. Know the rules. Know your place. Trust your instincts. Play by the rules. Defend your position.

Lesson learned - Life is simple; life is good. Enjoy.

I learned that small groups can make a difference. I believe that we had an impact on Marshall’s Greek system, on ZBT national, on Marshall University and to a smaller degree on the city of Huntington. We had pride, leadership and commitment. We had a plan and we executed. We probably were not smart enough to know that it could not be done - so we did it.

All in all, I was very fortunate to be affiliated with such an outstanding set of individuals during a very formative time of my life. Thank you to Ken Cohen, Kieve Pearlman, Paul Mayer and others for choosing me to be your friend and brother. Thank you for helping me establish a platform that has worked well for my family and me throughout life. I became friends with some of the most brilliant and interesting people I have ever had the pleasure of knowing.

While I personally know few of you, I am proud and impressed that one-third of you contribute to the scholarship fund. This can only mean that we continued to recruit people of good character who understand giving back is more important than receiving. Of course, I would like to see this number grow to 50%.

Sincerely,
Brother Roy Huffman
Beta Tau Colony Founder
Gamma Epsilon Chapter Founder
Chapter Eternal

It is our custom to memorialize those members of our Order who have passed to the Chapter Eternal. On Behalf of the Fraternity at large, we extend our sympathy to the families of those Brothers who have passed to the Chapter Eternal. We share with them the sense of loss occasioned by the passing of these true and loyal Brothers.

Dr. Richard Judelsohn, Epsilon (Union College - New York) ’63

JUDELSOHN - Dr. Richard January 15, 2012, loving brother of Arthur (Judith) Judelsohn; beloved father of David (Robyn) Judelsohn, Amy (Seth) Gordon and Alexandra Judelsohn; devoted grandfather of Logan and Lily Judelsohn and Harrison and Eleanor Gordon; uncle of Jessica (Eric) Kasimov. Funeral service will be held Wednesday, 10:30 AM at Temple Beth Zion, 805 Delaware Ave., Buffalo. Memorials may be made to Women and Children's Hospital. Following the interment the family will be receiving friends at the Buffalo Club, and also on Wednesday and Thursday from 7-9 PM at Richard's residence.

Andrew J. Kuebrich, Delta Lambda (Monmouth College – Illinois) ’09

Brother Andrew Kuebrich died doing what he loved, cycling. He spent his past year teaching English in China. He was a great symbol of what it means to be a gentleman. He was the Delta Lambda president from 2008 to 2009 and dealt with great hardships with great valor and courage. He was a symbol of what it meant to be a ZBT. Always putting a smile on people’s faces and looking out for the betterment of the chapter. He was a great example and will be missed unbelievably. Click here (http://beaconnews.suntimes.com/news/10252834-418/plano-man-killed-on-bike-ride-in-taiwan.html) to view a full article about Brother Kuebrich.
Brotherhood is not a one year commitment; it is a life-time commitment. We took an oath to remain brothers. An oath is something that cannot be taken back, that’s what makes it an oath. Although our Chapter, as we knew it, closed in 1976 and some 40 and even 50 years have passed since our members graduated, we are still loyal to each other and the connection and camaraderie still continues even after so many years.

The Iota Chapter of ZBT at the University of Denver has seen an increased prominence on campus and within the Fraternity over the last few years.
Alumni Association Spotlight
By: Stan Kittredge, Alpha Mu (UMass) '72
Treasurer, Phi Sigma Delta of Zeta Beta Tau Alumni Association of the University of Massachusetts

Brotherhood is not a one year commitment; it is a life-time commitment.... We took an oath to remain brothers. An oath is something that cannot be taken back, that's what makes it an oath. Although our Chapter, as we knew it, closed in 1976 and some 40 and even 50 years have passed since our members graduated, we are still loyal to each other and the connection and camaraderie still continues even after so many years. Our Alumni organization was formed in 1987 following the untimely death of a Brother. Several of us worked to locate addresses and contact information. Now, we are connected with well over 200 Brothers who were initiated into our Chapter.

As you might expect after so many years our Brothers have spread out all over the country. Accordingly we have held our annual reunions not only at UMass but also at Sturbridge Village, MA, Shaker Village, NH, Cape Cod, MA, Las Vegas, NV, among other locations. Group activities have also included events at UMass, Super Bowl parties and, most recently, a gathering at Fenway Park for a Boston Red Sox game. The common theme, of course, is participation and Brotherhood. Our Association encourages Brothers to stay in contact.

![Image](image-url)

Photo Caption: In 2010 the Alumni Association held their annual reunion at their old Chapter house at UMass. The Association was able to rent the house of the day from its current owners. Several signatures and notes from the 50's and 60's were discovered on the rafters and beams which triggered many memories and discussions. Photo taken by Gideon Rechnitz 'Alpha Mu (UMass) '69
I invite all to visit our website at PhiSig.atspace.com (no www needed) to view new and old photos and to browse our tribute page to those Brothers who have served in the military. Constantly updated, the website contains a host of information about our Association and its members. Information is available on the site about our "Brothers Helping Brothers Program" which began in 2009. This program allows Brothers who are willing to share their knowledge or experiences on various topics to make a connection with a fellow Brother in need or with the same interest. The list of subjects ranges from medical, legal, and financial to hobbies and a host of other topics.

Another program which we developed in 2010 is our "Brothers Alternate Relief Fund". This program provides emergency financial relief, emotional support and other assistance to Brothers in need. This unique program provides short term assistance while all involved work toward finding a long term solution for the Brother in need.

When ZBT established a new Colony at UMass in 1999 it brought the Fraternity’s presence back onto campus. Our Alumni Association was quick to make contact and offer assistance. In the ensuing years we participated with the undergraduates in many activities including softball games, football games, cookouts as well as offering mentoring and job placement opportunities for the Chapter members. Several members worked with the Colony to help with financial planning, social networking, Chapter management and the Colony’s Charter preparation. Ten Association members, mostly Past Presidents and former officers were in attendance when the Chapter received its National Charter in 2000.

Many members have contributed considerable work and effort into developing our Association programs, website and social network. We are all in agreement that the more we contribute the more we get back. It continues to be a wonderful ride for our Association and we look forward to more activities and memories as we move forward.

Any Brother wishing to connect with our Alumni Association should contact Stan Kittredge at: kitco1@comcast.net
Chapter Spotlight: University of Denver- Iota Chapter

By Christopher Fettig, Iota (Denver) ’11

The Iota Chapter of ZBT at the University of Denver has seen an increased prominence on campus and within the Fraternity over the last few years. Coming onto the campus, you’ll notice the size of the chapter: with close to 90 men, they are one of the largest fraternities with one of the top GPA’s (3.34). Successful recruitment year-round has enabled them initiate 34 new brothers this year alone and are on track to hopefully initiate 5 more in the spring quarter, making them one the top 10 chapters in the country for recruitment this year! In addition to having two brothers serve on the Greek Council Executive Board, an increased emphasis on alumni programming and engagement as well as strong brotherhood programming, the Iota Chapter is poised for a successful 2012 year.

“A strong focus on recruitment and the new member education process” according to Chapter President Scott Adams, has helped the Chapter take serious strides to becoming a larger, stronger, focused Chapter and be a true Powerhouse of Excellence.

A refocus of the internal organization has led to an increased prominence of the Vice President role within the chapter. They oversee and meet with Committee Chairmen on a weekly basis and help organize the committees under the chairmen. The Vice Presidents ensure events are being planned and that there is a well balanced calendar of community service, social events, brotherhood programming and philanthropy given out ahead of time.

Iota has held multiple successful events for Children’s Miracle Network, raising over $5,000 dollars through Get on the Ball this fall and Red Nose Days this past winter. The chapter also participates in the
local MS Society of Denver by doing the MS Walk each May in addition to participating in the philanthropies of many of the Greek organizations on the Denver campus.

They were the only fraternity to be awarded the Chapter of Achievement on campus this year in addition to runner-up to the Brummer Cup in Atlanta this past summer. They continue to excel in academics, athletics, community service, philanthropy and brotherhood programming and providing a well rounded, beneficial fraternity experience to their brothers. Megan Pendley-Pickett, Greek Advisor sums it up by saying the Chapter “continually pushes themselves to think outside the box and to be an active member of the Greek community, both on a Chapter and an individual level.” At the Iota Chapter at the University of Denver, it is truly great to be a ZBT.
